

2023 Botany in Action Fellowship Program

Contributed by aneely on Nov 22, 2022 - 03:42 PM

The Phipps Conservatory and Botanical Gardens in Pittsburgh, PA, is now accepting applications for the **2023 Botany in Action Fellowship program!**

The Botany in Action (BIA) Fellowship program at Phipps Conservatory fosters the development of the next generation of plant-based scientists who are committed, first, to excellent research, and second, to educational outreach. Open to Ph.D. students enrolled at U.S. graduate institutions and conducting plant-based scientific research, the program provides each fellow with:

1. \$5,000 for use towards research-related expenses at sites in the US or abroad,
2. an all-expenses paid trip to Phipps to engage in science outreach training and opportunities (dependent on next year's COVID19 situation), and
3. subsequent opportunities to connect their research with the public through programs, exhibits, and other outreach venues.
