2023 Botany in Action Fellowship Program

Contributed by aneely on Nov 22, 2022 - 03:42 PM

The Phipps Conservatory and Botanical Gardens in Pittsburgh, PA, is now accepting applications for the **2023 Botany in Action Fellowship program**!

The Botany in Action (BIA) Fellowship program at Phipps Conservatory fosters the development of the next generation of plant-based scientists who are committed, first, to excellent research, and second, to educational outreach. Open to Ph.D. students enrolled at U.S. graduate institutions and conducting plant-based scientific research, the program provides each fellow with:

- 1. \$5,000 for use towards research-related expenses at sites in the US or abroad,
- 2. an all-expenses paid trip to Phipps to engage in science outreach training and opportunities (dependent on next year's COVID19 situation), and
- 3. subsequent opportunities to connect their research with the public through programs, exhibits, and other outreach venues.

For more information on the program, click here.
